

# **RECURRING CONTRACTS LIST**

## **NAVAL AIR WARFARE CENTER WEAPONS DIVISION CHINA LAKE and POINT MUGU, CA**

This contract list contains contracts anticipated to recur but there is no guarantee of a follow-on requirement.

This list is not intended to be a complete list of all contracts at the Naval Air Warfare Center Weapons Division. Its purpose is to provide small business contractors with information on the types of services and commodities currently under contract. The Small Business Office hopes small businesses find this a valuable tool in their efforts to become government prime contractors and subcontractors. We welcome your comments.

The list is divided into four sections:

- Engineering / Technical Services
- Information Technology Maintenance & Support Services
- Miscellaneous Services
- Naval Air Technical Data & Engineering Service Command (NATEC)

The list provides general information on the contracts including the small business size standard for set-asides. Total award amounts include basic contract plus options unless stated otherwise.

For some service contracts, the total award may be a not-to-exceed amount. These amounts are based on the Government's maximum expected need at the time of award. Actual obligated dollars may be less.

You may review our requirements at Federal Business Opportunities (FedBizOpps) or Navy Electronic Commerce On-line (NECO) websites:
